

RECOMMENDED FLUID CHART

When flushing a power steering system or replacing a power steering pump, it is important to follow the recommendations and specifications as established by the vehicle manufacturer. NOT all fluids are the same and, if improperly used, can cause system performance issues. Refer to ALLDATapro.com or other industry sources to determine the correct fluid for your vehicle application prior to installation.

REMEMBER, system contamination left unaddressed due to poor fluid maintenance practices is the #1 condition leading to premature system failure.

MAKE	MODEL	FLUID TYPE	PENTOSIN RECOMMENDED FLUID	OE#
ACURA	ALL MODELS	PS FLUID	N/A	08206-9002
AUDI	ALL MODELS UP TO 3/89	DEXRON II OR III	ATF1	ZVW 239 902
